Rustburg Beats Appomattox

BY Donna Mitchell

The Appomattox Raiderettes met the Rustburg Devilettes on Thurs., April 21, in a Seminole District softball game.

Rustburg, behind the strong pitching of Varlerie Cunningham, used strong defense to defeat the Raiderettes 28-11.

Appomattox held on the first two innings before falling behind after Annette Carter, one of the Appomattox players, was hurt on a put-out of an attempted steal to second by Ann Cardwell.

Roni Franklin led the Raiderettes going 2 for 4, 2 stolen bases and 4 RBI's. Connie Murray went 2 for 4, scored 1 run and had 3 RBI's. Berneta Moore went 3 for 5, scored 3 runs and had 4 stolen bases. Angie Richardson went 1 for 2 and had 2 RBI's.

Rustburg was led by April Tweedy who went 2 for 5, scored 4 runs and had 6 RBI's. Vicky Charlton went 2 for 4, scored 4 runs and had 5 RBI's.

The Raiderettes are now 5-4.

It is very probable that the cereal leaf beetle is feeding on small grain in Appomattox County. Last week this insect was reported in counties east of us. Since it is moving from west to east we would suspect that he is in Appomattox County.

We are asking Appomattox farmers to keep a close watch on their small grains. Feeding begins in late April and early May. The larvae chews out long strips between the leaf veins. There may be several damaged strips on a single leaf. The larvae resembles the Colorado potato beetle in shape. The head and legs are brown-black; the body yellowish.

The adult may feed also. It is 3/16" long and is a metallic, bluish black.

If you suspect this insect in your small grain or feeding on native grasses, let us know.

Last week the Appomattox Cattlemen's Association had another outstanding meeting with Clarence White serving as chef. The next meeting will be July 23 at the O. H. Tolley Farm. The program will relate to the use of artificial breeding in a beef herd. This will be a family picnic.

Many farmers who have participated in the pesticide training program are aware of the importance of using NIOSH approved respirator equipment for certain pesticides. A list of approved equipment and sources is being distributed to farm supply dealers. If the farm manager or his employees plan to use pesticides that require this safety equipment he can obtain information from his dealer or this office.

There are a lot of new silos going up and several were constructed last year.

One thing to remember - the forage blower capacity drops rapidly as silo height increases. Impeller blade wear increases clearance and reduces blower efficiency. Never blowers with large diameter fans and faster blade-tip speeds will elevate up to 100 tons/hour at heights of 75-80 feet.

Better check yours out before time to harvest barley and then corn.

You are going to be hearing more about energy, reading more about energy and doing more to conserve energy in the months and years ahead.

One of the first steps is to get your home properly insulated and doors weather-stripped.

When should it be done? NOW. It will make your home cooler this summer and you'll avoid the mad rush to get it done next October and November. It would seem that you might get the job done better and maybe even cheaper if you avoid the rush.

USDA Announces 1977 Tobacco Price Support Levels, Calls for Comments - The U. S. Department of Agriculture has announced that price support levels for eligible kinds of tobacco will be about 7.3 percent above those in effect last year. The 1977 support prices by kind and comparable 1976 rates are as follows:

Kind	1977 Crop (Cents per pound)	1976 Crop (Cents per pound)
Flue-Cured Types 11-14	113.8	106.0
Burley, Type 31	117.3	109.3
Va. Fire-Cured,Type 21	79.5	74.1
Kentucky-Tennessee Fire-Cured, Types 22-23	79.5	74.1
Dark Air-Cured, Types 35-36	70.7	65.9
Virginia Sun-Cured, Type 37	70.7	65.9

Current legislation requires that price support be made available for those kinds of tobacco for which producers have approved marketing quotas. The law requires that the levels of support for those kinds of tobacco be determined by first calculating the ratio of the average index of prices for 1959 (298). This ratio (2.05) is then multiplied by the 1959 support level for each kind of tobacco to determine the 1977 support level. In 1976, support prices were 191 percent of the 1959 prices: for 1977, support prices are 205 percent of 1959.

USDA also announced it is evaluating all aspects of the tobacco program and invited the public to assist in the evaluation through written comment. Comments must be received by the Department no later than May 20.

Among other items, USDA is considering continuing to make price support available through loans to producer associations.

Written comments should be submitted to the Director, Tobacco and Peanut Division, USDA-ASCS, P. O. Box 2415, Washington, D.C. 20013. Comments received will be made available for public inspection during regular business hours at the Office of the Director, Room 5750, of USDA's South Building.

No Deficiency Payment Needed for 1976 Crop Corn and Sorghum - The Department of Agriculture has announced there will be no deficiency payments made for 1976 crop corn and sorghum. Under current legislation, deficiency payments are made to producers when the average market price received by farmers for corn and sorghum during the first five months of the marketing year (October-February) is less than the established "target" price.

The national weighted average price received by farmers for corn was $2.24 per bushel and $1.97 per bushel ($3.52 per cwt.) for sorghum. Since these prices are above the 1976 corn target of $1.57 and sorghum target of $1.49, there will be no deficiency payments.

Deficiency payments have never been made on either corn or sorghum in the four years of the program.

GRETNA RUNS BY APPOMATTOX

By Donna Mitchell

The Gretna Hens met the Appomattox Raiderettes in Appomattox in the Raiderette's third game of the week where the Hens won 28-3.

The Hens used a strong hitting and running game to win. The Raiderettes who got Annette Carter back from injury, couldn't seem to get their hitting game going.

The Raiderettes were led by Roni Franklin who went 2 for 4, scored 1 run and had 1 RBI. Angie Richardson went 2 for 4, scored 1 run, and had 1 double.

The Hens were led by Bonita Rowland who went 6 for 6, had 2 home runs and scored 5 runs and had 5 RBI's.

The Raiderettes are 5-5 and the hens are 8-2.

Ladies Aide Meeting will be this Wednesday evening at 7 p.m. All members are asked to please come.

JORDAN

All present enjoyed the inspiring sermon coming from Rev. Elliott Sunday. His subject was "Like a Tree." During the service Drs. Fratrick and Matthews and their staff and the Delphine Lewis family presented the church with a brass altar cross and candle set in memory of Mrs. Melinda Megginson, who was killed in an auto accident in January.

On Sunday evening at 6, the Jordanaires celebrated their 5th anniversary. This program was well attended.

The Ladies Club will meet the first Saturday night in May at 7:30 p.m.

Mr. Nathaniel Jones is a patient in the Lynchburg General Hospital.
